# About Us

At HIIUDESIGN ÜÜ, we are artisans of atmosphere—crafting eco-friendly candles inspired by Estonia's serene Hiumaa island. Since 2020, our mission has been to create beautiful, sustainable products that honor nature and the environment.

We specialize in hand-poured candles in concrete jars, using 100% natural rapeseed wax and premium essential and aroma oils. Every ingredient is non-toxic, biodegradable, and free of harmful chemicals. From cotton wicks to reusable packaging, sustainability is at the heart of our process.

Operating on a small scale, we ensure quality and individuality in every piece. Each candle cup is unique, made using reclaimed materials to reduce waste. HIIUDESIGN is a celebration of mindful living and minimal waste, capturing the essence of Hiumaa through scents like "Magic Forest" and "Lavender" that soothe the soul.
